CAREER OBJECTIVE

Aspiring MERN Stack and React Native Developer with hands-on experience in building web and mobile applications using React.js, React Native, Node.js, Express.js, and PostgreSQL. Skilled in developing RESTful APIs, backend integration, and scalable full-stack applications using JavaScript, HTML5, and CSS3. Passionate about developing cross-platform applications and continuously learning modern web and mobile technologies.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering 8.55/10 CGPA
Brindavan Institute of Technology and Science 2020 - 2024 | Kurnool

TECHNICAL SKILLS

- | | |
|---------------------------------------|--|
| • Web Technologies: | HTML5, CSS3, JavaScript (ES6+). |
| • Programming Languages: | JavaScript. |
| • Libraries and Framework: | React.js, React Native, Node.js, Express.js. |
| • Database: | MongoDB, PostgreSQL, Firebase (Realtime Database). |
| • Cloud & Deployment: | AWS (EC2, S3), Docker, Nginx, CI/CD, REST API. |
| • Integrations & Services: | Firebase Authentication, OTP Authentication, Razorpay Payment Gateway, JWT Authentication. |
| • Developer Tools: | VS Code, Git, GitHub, Postman. |

EXPERIENCE

Weiteredge Technology Pvt. Ltd JULY 2025– Current
Full Stack Developer Hyderabad, India

LEADITOA | (React Native, React.js, Node.js, PostgreSQL, Firebase, Razorpay)

- Developed a full-stack lead generation platform using **React.js** and **React Native** by building web and mobile applications with seamless backend integration, while designing and integrating **RESTful APIs** using **Node.js** and **Express.js** for authentication, lead management, and application workflows.
- Implemented **Firebase OTP Authentication**, **JWT-based authorization**, and **Razorpay Payment Gateway** integration for secure user login, authentication, and online payment processing.
- Managed **PostgreSQL** database operations and successfully deployed the mobile application to the **Google Play Store**.

THELAUNDRYGUYZ | (React Native, React.js, Node.js, PostgreSQL, Firebase)

- Developed a full-stack laundry management platform using **React.js** and **React Native** by building web and mobile user interfaces with seamless backend connectivity, implementing **RESTful APIs** using **Node.js** and **Express.js**, and managing **PostgreSQL** database operations with core **CRUD** functionalities and smooth frontend–backend synchronization.
- Collaborated in deploying the mobile application to the **Google Play Store**, contributing to production-ready application **delivery** and **testing**.

Greensip– Smart Waste Management | (React Native, React.js, Node.js, PostgreSQL, Firebase)

- Contributed to a **government-scale smart waste management application**, building and enhancing **cross-platform mobile interfaces** using **React Native** and **React.js**, deployed on the **Google Play Store**.
- Implemented the **barcode-based rewards feature** on the frontend, enabling users to earn and redeem points through seamless UI flows and API integration.
- Integrated **REST APIs** and **Firebase Authentication**, handling real-time data updates and user interactions in coordination with backend services.

CERTIFICATES

Python 101 for Data Science A course on cognitiveclass.ai Powered by IBM Developer Skills Network.

ACHIEVEMENTS

Winner, SAMSKRUTHI-2023 Ideathon

First place for presenting an innovative solution at the 2022 SAMSKRUTHI-2023 Ideathon, organized by Makeskilled at Malineni Lakshmaiah Women's Engineering College, Guntur.
